

# EDUCATION REPORT

2024

PROJECTS FOR HUMANITY

# Introduction

In Bangladesh, more than 21 million people live in extreme poverty, unable to afford even the basic cost of their children's education. A lack of an education-friendly environment, ignorance of the parents, and financial constraints often cause dropouts from school.

Sadly, apart from the street children, a considerable number of children who have parents and shelter are still not getting the opportunity to go to school. The substantial additional private costs of education that the parents have to meet for their children's schooling are discouraging and a burden for underprivileged and low-income people, leading some children into child labor.

We strongly believe that underprivileged talented students, when provided with the right guidance, educational support, and other basic necessities such as nutritious food, have the potential to become invaluable assets to our nation. By empowering these students with the resources they need, we can help them achieve their full potential and foster self-reliance.

# Our Service

We offer two types of support to guarantee quality education for underprivileged and economically disadvantaged students, covering their educational journey from the first grade to the university level.

Through our Creative Champions Project (CCP), we create an inclusive and nurturing environment where these young minds can thrive and develop their skills. By offering them access to quality education and mentoring and other basic necessities such as nutritious food, we aim to unlock their hidden talents and abilities. We understand that talent is distributed evenly, but opportunities are not. Therefore, we are committed to bridging this gap and providing equal opportunities to all deserving students.

Additionally, we extend both one-time and recurring scholarships to students hailing from remote regions, ensuring they have the opportunity to thrive and succeed in their academic pursuits. Together, we aim to create a brighter and more promising future for these deserving individuals.

## Key Features of Creative Champions Project (CCP)

1. 24/7 support and comprehensive Care for meritorious Underprivileged Students.
2. All basic needs are provided: education, food, health, and clothing.
3. Providing essential supplies for their daily needs.
4. Integration of modern and religious education.
5. Ensuring the children receive healthy and balanced meals.
6. Creating a nurturing environment for their growth and development.
7. Focus on physical, mental, and emotional well-being.
8. Personalized support for unique needs.
9. Conduct regular assessments to monitor the children's progress.
10. Identifying areas of improvement and implementing appropriate measures.

Our students getting quality education in the city

## Why We Do?

Every year, approximately 3 million students complete primary education in Bangladesh, with almost half hailing from economically disadvantaged backgrounds. Despite facing challenges from birth due to their natural environment, geography, and social circumstances, these students exhibit remarkable talent and intelligence. Born into extreme poverty, they learn to navigate the world without proper health care, nutritious food, or guidance, making them mature and gifted beyond their years.

Unfortunately, many of them must abandon their studies before reaching high school due to family and financial hardships, and even those with excellent primary-level results struggle to secure admission to reputable educational institutions.

Regrettably, without adequate support and opportunities, many of these children end up engaging in various anti-social and terrorist activities, becoming a burden on society. Addressing the root causes of their vulnerabilities and providing them with the necessary guidance and resources is crucial to break this cycle and create a safer, more harmonious community for everyone.

Our mission is to nurture these promising students, who emerge as 'Champions' despite the odds and transform them into successful citizens. By assuming responsibility for their educational journey beyond the initial phase, we aim to provide them with the support and opportunities they deserve. Through this effort, we envision a brighter future where these talented individuals can overcome obstacles and become valuable contributors to society.

# Creating Champions Project (CCP)

In our Creating Champions Project (CCP), we meticulously select talented and underprivileged students from all over Bangladesh. As part of this initiative, we not only offer them exceptional education but also provide accommodation and food facilities. Our support extends beyond formal school-based learning, as we arrange home quizzes, in-house sports competitions, self-development training, and other activities to foster their talent and growth.

To ensure their well-being, we fulfill their basic needs by offering medical care, clothing, and education, aiming to shape them into well-rounded individuals and exemplary human beings. Through CCP, we cultivate an environment where these young minds can thrive, irrespective of their socio-economic background, empowering them to realize their fullest potential.

## Education Scholarship

Numerous disadvantaged students face the unfortunate reality of dropping out before reaching high school due to family and financial challenges. Even those with commendable primary-level results find it difficult to secure admission to prestigious institutions due to the lack of financial support.

To address this pressing issue, we have taken concrete steps by establishing the Education Scholarship Program. Through this program, we offer 30 scholarship opportunities, to deserving and meritorious students.

Through these scholarships, we aim to ensure that they can continue their studies unhindered, transforming into valuable assets for the country and achieving self-reliance. By investing in their education and empowering them with opportunities, we envision a future where these students can thrive and make significant contributions to society.

# Talent Hunt Process of CCP

Underprivileged  
Students

In collaboration with the local authorities, we carefully select deserving and promising candidates through the aforementioned process from among the underprivileged and economically disadvantaged students who apply.

# How We Are Creating Champions

**1****CO-CURRICULAR FOCUSED  
RESIDENCIAL SCHOOL****RECEIVING EDUCATIONAL AND  
OTHER NECESSARY MATERIALS****2****3****ACADEMIC STUDIES AND  
AFTER SCHOOLING CARING****SPORTS & CO-CURRICULAR  
ACTIVITIES****4****5****PERSONAL CARE &  
NUTRITIOUS FOOD****SELF-DEVELOPMENT AND  
BECOMING A TRUE CHAMPION****6**

# What Do We Provide?

## Quality Education

- Provide both moral and secular education
- Advance Schooling
- Homecare afterschool
- Subject-wise tutoring
- Topic-based quiz competition
- Educational tour
- Self-development training
- Computer and IT Education

## Safe Shelter

- Living in a concrete building.
- Sufficient sunlight and air.
- All facilities including electricity, water, gas
- Sanitary toilets
- Separate bed and locker for each person.
- Hostel superintendent, support staff, etc.
- Proper security

# What Do We Provide?

## Healthy Food

- Nutritious meals for breakfast, lunch, and dinner.
- A healthy diet consisting of vegetables, fish, meat, milk, eggs, nuts, etc.
- Local seasonal fruits and essential snacks
- Group meal (i.e., communal eating) at specified schedules

## Exercise and Sports

- Daily exercises for fitness
- Playing sports for team building
- Indoor games facilities
- Necessary equipment for physical exercise and sports
- Skilled Trainer for sports and fitness
- Extra co-curricular activities
- are organized regularly for the development of children

## What Do We Provide?

### Other Basic Needs

- Travel expenses to and from home
- First Aid and necessary medicine
- Regular consumables and necessary stationery
- Regular Communication with relatives
- Regular physical check-ups by doctor

### Family support

- Providing various support to orphan families in need.
- Providing sewing machines to their mother to empower them.
- Providing cattle to their families to generate income.
- Small Business Arrangements for their family.

# Overview Of our Activites

Young children leaving their parents are greeted with a fresher's reception, signaling a joyful beginning to their journey towards becoming champions.

In a serene and beautiful environment for study, CCP facilitates Underprevelized and poor children with a harmonious mix of Moral and Secular education, shaping their character and knowledge for a brighter future.

# Overview Of our Activites

Just like us, underprivileged students are provided with nutritious and healthy meals for every mealtime, fostering their well-being and enhancing their focus on studies.

Radiating with joy, the underprivileged children enthusiastically embrace their new school bags and dresses, savoring the feeling of equality among their peers.

# Overview Of our Activites

Through sports, martial-arts and regular physical exercise, underprivileged children will be empowered to develop physically, emotionally, and socially.

We have organized plantation programs for them, with the goal of fostering social and environmental conservation while creating awareness. Through these initiatives they are now becoming responsible individuals.

# Overview Of our Activities

Venturing to various sightseeing and educational destinations, underprivileged children embrace enriching experiences that nurture their mental and intellectual growth.

From their student days, we are committed to guiding and shaping them into responsible and conscientious citizens, instilling these values through practical lessons and experiences.

# Transforming Lives

## Impact Story of Abdul Aziz

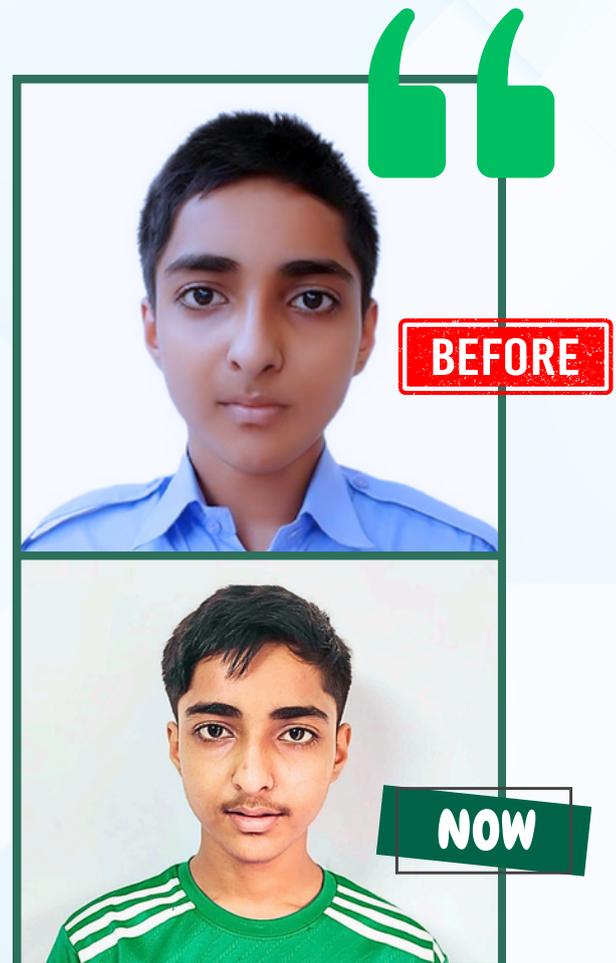

Abdul Aziz was born in a small village named Sabuj Para in Kurigram district. Life was simple but filled with love, until tragedy struck in 2015 when his father passed away due to illness the family couldn't afford to treat. In the years that followed, Abdul Aziz endured hardship, neglect, and displacement – moving from his mother's remarried home to distant relatives who were strangers by blood but kind enough to offer shelter.

Yet through every struggle, one thing remained constant in Abdul's heart: his thirst for knowledge. He dreamed of a life where education could break the chains of poverty and pain.

That dream found its wings when Projects for Humanity (P4H) discovered Abdul Aziz and welcomed him into Champion Academy two years ago. Here, for the first time, Abdul found not just a classroom, but a family. A place where caring teachers, safe shelter, and proper education rebuilt his hopes.

**His dedication paid off – in 2024, Abdul Aziz ranked first in his class in the final exam.** His story is a powerful reminder of how education transforms lives and how, with the right opportunity, a child from even the hardest beginnings can rise to shine.

Today, Abdul Aziz is determined to continue his journey and one day serve his community – just as P4H and Champion Academy have stood beside him.
